New Venture Business Park

In addition to our core businesses, Hikvision has rapidly expanded into innovative business areas such as *smart home, robotics, automotive electronics, intelligent storage, fire safety, thermal imaging, X-ray detection, and medical imaging.*

Learn more at the EZVIZ and Hikrayin Experience Halls in our new venture business park.

Tonglu Manufacturing Complex

The manufacturing complex covers most of Hikvision's security products, from cameras to video recorders, as well as transmission, control and display units. The smart factory uses SAP, MES, IWMS and other advanced IT systems, and applies self-developed intelligent warehouse systems and AGV robots to achieve future-ready logistics management.

Hangzhou is a city with historical and modern charm. If you would like to explore this beautiful and vibrant city, please refer to the following travel guide.
