

Modular IP Video Intercom Solution ADAPTABLE AND ELEGANT

KEY BENEFITS

Clear Audio-Visual Communication:

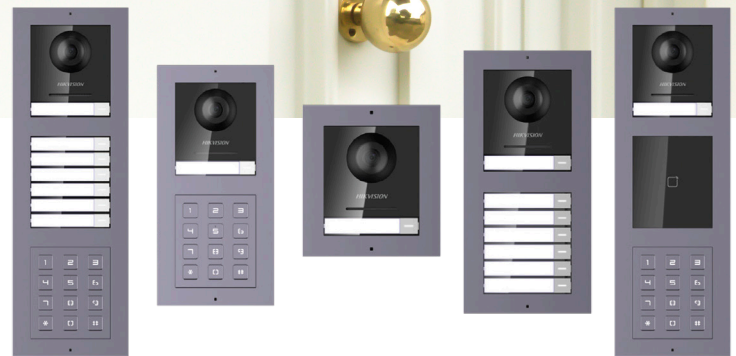

- ❑ Communicate clearly with noise and echo cancellation
- ❑ Door station camera provides a Full HD, 180° wide field of view
- ❑ See clearly day and night with true WDR and IR night vision

Easy to Use for Multiple Applications:

- ❑ Intercom, doorbell, multi-tenant video entry and monitoring functions
- ❑ Receive calls from visitors and unlock the door on indoor stations, smartphones and tablets using the Hik-Connect mobile app
- ❑ Call room-to-room between indoor stations and iVMS-4200 software
- ❑ Monitor additional surveillance cameras on the indoor station
- ❑ Record door station video with motion detection on your Hikvision NVR/DVR

Easy to Install:

- ❑ Standard PoE switches can connect and power the whole system
- ❑ Indoor stations can also connect via Wi-Fi with 12 V power
- ❑ All door station modules can be surface or flush mounted
- ❑ Simplified configuration gets you started in minutes

MODULAR IP & TWO-WIRE VIDEO INTERCOM KIT

These kits are readily suited for homes and businesses where the door station calls one or more indoors stations at the same time. It can be expanded with more modules and stations as needed.

2-Wire Value Indoor Station	2-Wire Surface Mount Door Station	Video/Audio Distributor	Memory Card

MODULAR DOOR STATION

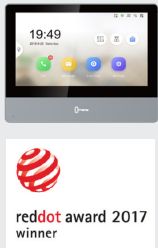

The basic door station includes the surface or flush mounted main unit, which provides video intercom functionality with one name tag and call button. Up to eight additional modules can be connected to the main unit. The name tag module provides six additional name tags and call buttons. The card reader module allows door unlock using RFID cards or fobs. The keypad module allows dialing more than 500 rooms as well as passcode access. The display module lists the contacts that can be selected and called. There are surface and flush mount frames that hold two or three modules vertically, and multiple frames can be mounted adjacently.

AVAILABLE MODELS	
DS-KD8003-IME1/Surface	Main unit with surface mount
DS-KD8003-IME1/Flush	Main unit with flush mount
DS-KD8003-IME1	Main module without mount
DS-KD-KK	Name tag module
DS-KD-M	Card reader module
DS-KD-KP	Keypad module
DS-KD-DIS	Contact display module
DS-KD-BK	Blank Space Filler Module
DS-KD-ACW1	Surface mount frame for 1 module
DS-KD-ACW2	Surface mount frame for 2 modules
DS-KD-ACW3	Surface mount frame for 3 modules
DS-KD-ACF2/Plastic	Flush mount frame for 2 modules
DS-KD-ACF3/Plastic	Flush mount frame for 3 modules

INDOOR STATIONS

- User Friendly
7 Inch Touchscreen
- Supports 32 GB
Micro SD Card
- Standard PoE
IEEE 802.3af
- Auto Captures Pictures
& Messages
- 8 Alarm Inputs
2 Alarm Outputs
- Wi-Fi Supported IEEE
802.11b/g/n

- Pro Model**
DS-KH8350-WTE1
- IPS LCD 1024x600 Display
 - Aerospace-Grade Aluminum Frame
 - Premium Tempered Glass Touchscreen
 - Physical Button for Unlocking Door
 - Standard PoE

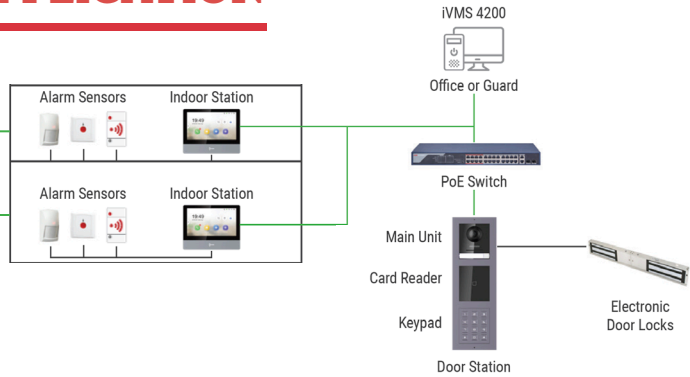

- Value Model**
DS-KH6320-WTE1
- TFT LCD 1024x600 Display
 - Plastic Frame
 - Glass Touchscreen
 - No Physical Buttons
 - Standard PoE

- 10" IP Intercom Indoor Station**
DS-KH9510-WTE1
- 10" Indoor Station with Android OS
 - User Friendly Touch Screen Interface
 - Standard PoE
