Operation and management of all security devices in one place

The HikCentral-Workstation/32C-4D/i7 comes bundled with HikCentral Professional and out of the box support for 32 channels of video and 4 doors.

The HikCentral Workstation is designed to support a variety of security challenges for small and medium security applications in one intuitive platform: from managing individual systems such as video security, access control, intercom, etc., to collaborating multiple systems under a unified architecture. While protecting people and property, HikCentral makes daily operations more efficient, and helps users make smarter decisions.

Simple Deployment: The HikCentral Professional full version is pre-installed and activated with 32 camera channels and 4 doors.

Simple Hardware Management: Manages cameras, access, intercom and more.

Centralized Alarm Management: System-wide, real-time alarm notifications from anywhere.

Health Monitoring: Device health monitoring with real-time device error notifications.

Extended Warranty: 3 years on hardware and software.
